

Power5 Charging Station

Brenthaven's revolutionary, cable-free charging station, Power5 is a game changer for iPad management. When exclusively combined with Brenthaven's Protect+ case line and Cable-Free Adapter (sold separately) you can simultaneously charge up to five iPad devices at the same rate as traditional iPad charging cables (20W).

A sleek design and small footprint mean you can do away with bulky charge carts and cable chaos for good. The docking station utilizes USB-C 3.0 PD charging, the latest in charging technology while also providing important features such as convection cooling ventilation and a power/charge status indicator light.

The future of cable-free charging is here with Brenthaven's Power5 Charging Station.

Features

- Allows for cable-free charging – exclusive compatibility with Brenthaven Protect+ cases with Cable-Free Adapter (sold separately and required for cable-free charging)
- Sleek design with smaller footprint
